

20. Taking now the actual figures for the year, irrespective of the estimates, we have—

	Rs.	A.	P.
Expenditure as per account	16,61,333	6	0
Liabilities not provided for in budget of 1878	4,06,389	0	0
Total	20,67,722	6	0
Revenue and receipts as per account...	17,21,734	4	8
Deficit	3,45,988	1	4

That the balance of the General Fund taken as a whole was insufficient to cover this deficit will be apparent from the annual account which closes with a balance of Rs. 3,37,305, and the explanatory memorandum of details will show that the bulk (Rs. 2,80,540-7) of this balance was held in stores and building and road materials, and that, of Rs. 91,754-14-8, the cash in hand, Rs. 34,990 represented money due to other funds and deposits repayable to the contractors and others, after allowing for the realization of all recoverable advances independent altogether of the liabilities of the revenue account of the General Fund above referred to.

21. We are not aware that it has been ascertained what is the minimum balance of stores which is indispensable to the efficient working of the various departments of the municipality for any given period, nor has any money limit of which the auditors can take cognizance been placed at any time by the Commissioners in meeting on purchases of stores to be made during a year. These purchases, as explained at paragraph 8, are separate from the revenue and expenditure of the General Fund, being treated as a suspense account, and they do not appear in the annual budget, although they have a most important bearing on the financial operations of each year. In proof of this we would draw your attention to the fact that of Rs. 2,80,540-7-0, the value of stores in hand on 31st December 1877, no less a sum than Rs. 98,868-14-3 represented stores which could not possibly be brought into use in reduction of the ordinary expenditure of any year, viz.—

	Rs.	A.	P.
Iron-work for the market building	55,605	7	2
Tramway stores	14,414	3	1
Tools and implements	28,849	4	0

So that the net balance of stores in hand, Rs. 1,81,671-8-9, and the net available balance of cash, Rs. 56,769-14-8, on the 31st December, or, in other words, the entire disposable balance of the General Fund, viz. Rs. 2,38,441-7-5, would have been insufficient to meet the deficit of the revenue account, Rs. 3,45,988-1-4.

22. In a resolution of the Town Council of the 10th May last, our attention was specially invited to the causes of the deficit, and we were asked "to lay before the Commissioners a clear statement shewing the excess expenditure over budget grants, including all the supplementary grants sanctioned by the Commissioner for 1877, and a similar statement for 1876, and shewing, as furnished by the Chairman of the Municipality, all outstanding liabilities at the end of 1876 and 1877 compared with the budget and supplementary grants." We have, we believe, in the foregoing remarks furnished the information required as regards the nature and causes of the deficit of 1877, and we beg to subjoin a statement shewing in abstract form the transactions of that year and of 1876 as they appear in the accounts with the opening and closing balances:—

1876.	Balance on 1st January 1876.	Receipts.	Total.	Expenditure.	Balance on 31st December 1876.

23. As regards the causes of the deficit of 1876, we observe in the first place that the budget of that year as originally framed estimated for a deficit of Rs. 85,818, that being the difference between the receipts and charges of that year, thus—

	Rs.
Estimated receipts	16,86,901
„ charges	17,72,719
Deficit	85,818

These figures are exclusive of the amounts which appear on either side of the budget under the head of "Manufactories," and also of the sum of Rs. 50,000, the estimated "value of drainage stores to be refunded to the General Fund in 1876," which, as explained at paragraph 8, should never have been taken into account as revenue. In the course of the year, however, sanctions were given by the late Justices and the Commissioners to additional expenditure to the amount of Rs. 1,28,179, while the revenue remained unaltered, the estimated deficit being increased by this means to Rs. 2,13,997, apart altogether from unsanctioned payments in excess of budget limits. It now appears, moreover, that the budget of 1876, which was framed in the same way as all other budgets of the municipality have been framed within our experience, did not provide for all outstanding liabilities of former years. We do not detail these liabilities of 1876, because the accounts of that year and of 1877 being considered together, all outstanding liabilities of 1876 have been either discharged in 1877 or included in the Chairman's memorandum of outstanding liabilities on 31st December 1877, referred to in paragraph 18.

24. While making these remarks at the invitation of the Town Council, we take the opportunity to observe that it does not fall within our province as auditors of the municipal accounts to criticize the municipal budgets or to ascertain whether provision is fully made in them for all outstanding liabilities; and remarks of this kind do not ordinarily appear in an audit report. The budget figures of each year are accepted without question by us as auditors, and our duty is to leave all responsibility for the estimates to the Corporation, and merely to report all

the differences which occur between these figures and the actual receipts and payments of the year, for the accuracy of which, as set forth in the accounts, we are entirely responsible. In all cases, therefore, in which a budget grant has remained either wholly or partially unaffected by the actual receipts or payments of the year, the entire amount, or the difference, has been entered accordingly in the appropriate column of the published accounts, and in certifying the accuracy of these entries our duties as auditors seem, as regards such transactions, to be fulfilled.

25. While the estimated deficit for 1876 was Rs. 2,13,997, as shown above, the deficit in the actual figures was Rs. 1,49,026-8-5. The details of this deficit will be found in the 4th and 5th columns of the printed accounts of 1876, and the causes were brought to your notice in paragraphs 10 to 17 of our audit report of that year, the principal items of excess expenditure being as follows:—

					Rs.	A.	P.
Interest account	...	...	...	...	43,282	8	6
Road department	...	...	...	...	20,380	3	6
Municipal railway	...	...	...	...	5,413	12	0

We would remind you, however, as regards the excess under interest, that it was occasioned by the transfer to a separate account (in accordance with the law which had been previously disregarded in this particular) of the entire sum which was due and payable on account of interest on the 31st December 1876. After this transfer the General Fund was absolutely free of liability in respect of interest on debenture loans, and the amount transferred, Rs. 1,60,939, though only an estimate, has been proved by a detailed investigation subsequently made, under the supervision of an Accountant of the Public Works Department specially deputed for the purpose, to be substantially correct. The outstanding interest on 31st December 1876 is shown in a report submitted to the Commissioners to have been Rs. 1,60,050, or Rs. 889 less than the amount transferred, and statements have been produced to us, duly authenticated by the officer who conducted the inquiry, detailing the numbers and amounts of the debentures of all the loans, and shewing the amount of interest due upon each.

26. At the close of the year 1876 there remained at credit of General Fund a net balance of Rs. 2,76,904-7-4, but of this amount there was only a nominal sum in cash, Rs. 75-2-1, the amount being made up as follows:—

					Rs.	A.	P.
Cash	...	...	...	...	75	2	1
Stores and materials	...	...	...	...	3,31,001	4	7
Tools and implements	...	...	...	...	33,749	13	6
Advances recoverable	...	...	...	...	65,491	13	10
Total	...	...	...	...	4,30,318	2	0
Less due to Bank of Bengal for over drafts...	...	...	...	...	5,153	1	8
Deposits ...	...	...	...	...	7,942	8	10
Other rates and Loan Funds	...	...	...	...	1,40,318	0	2
					1,53,413	10	8
Balance	...	...	...	...	2,76,904	7	4

From the value of the store balance as above stated there should be deducted Rs. 70,019-10-3 on account of market building and tramway materials of which no use could be made (see paragraph 21), so that the net balance of working stores, Rs. 2,60,981-10-4, was practically all that was available to meet the deficit of the year.

27. We have the following remarks to add to what we have said above regarding the audit of the General Fund account of 1877. In checking the pay bills of the various establishments we have noticed deviations which have occurred from the details of the scale sanctioned for each establishment in the budget of the year; and as the pay of every office under the Commissioners, however small, must, under section 36 of the Act, be approved by the Commissioners in meeting, revised lists of establishments shewing the actual distribution were submitted to the Town Council, and ordered, we observe, to be circulated. These proceedings of the Town Council have been confirmed by the Commissioners in meeting, and we conclude, therefore, that the charges have been sanctioned, and we have passed the bills accordingly. We have frequently called for the register of lands and immovable property which was directed to be opened at our suggestion in the Resolution of the Commissioners in meeting of the 31st January 1877, but it has not been produced to us. Nor has any authority been produced for writing off the books of the Kotrung manufactory a sum of Rs. 2,381, being the loss sustained by the sale of boats belonging to the Corporation.

#### WATER-RATE ACCOUNT.

28. We subjoin two memoranda (in the forms given at paragraphs 6 and 22 for the General Fund) shewing the actual receipts and charges of the water-rate fund of the year 1877—*first*, in comparison with the budget figures; and *secondly*, with the opening and closing balances of the year as shewn in the books of the Corporation:—

1877.		Receipts.	Charges.	Surplus.	Deficit.

Total	1,93,397 7 6				4,06,305 12 10

GRAND TOTAL	1,73,610 8 3	6,18,135 9 2	7,91,746 1 5	3,85,533 5 7	4,06,312 11 10

\* Due to water-supply loan account.

It would seem from these figures that the estimated receipts of the year as entered in the budget were exceeded by Rs. 44,636, and that the expenditure also was less than the budget by Rs. 2,45,738, the account closing on the 31st of December with the large balance of Rs. 4,06,212-11-10. As in the case of the General Fund, however, an examination of the savings of expenditure shows that they are to a large extent nominal, an entire half-year's interest and sinking fund contribution on the total water-supply debt having been left unpaid, viz.—

	Rs.
Interest ... ..	1,16,510
Sinking ... ..	57,500
Total ...	1,74,070

In this case, however, the large loans taken during the year for the purposes of the General Fund and the drainage loan account contributed directly to the failure of cash to meet the liabilities of the water-rate account, viz.—

	Rs.
Loan to General Fund ... ..	1,29,479
„ to drainage loan... ..	66,550
Total ...	1,96,029

and hence any extra charge, such as compound interest, which the non-payment may involve, ought to be borne by the General and not the Water-rate Fund.

29. The following are the most important differences between the actual receipts and charges of the year and the budget figures:—

Receipts.	Excess over budget.		Less than budget.	
	Rs.	A. P.	Rs.	A. P.
Sale of water ... ..	44,187	9 9		
Miscellaneous ... ..	12,466	3 8		
House connection fees ... ..	.....		7,689	6 3
<i>Expenditure.</i>				
Charges for the sale of water ... ..	5,341	0 1		
Repairs and cleaning of filters, Pultah ... ..	4,382	12 1		
Repairs of building, Tallah ... ..	1,248	4 11		
Proportion of Entally establishment ... ..	1,424	6 9		
Profit and loss ... ..	1,165	2 1		
Extension of water-supply ... ..	1,386	9 3		
Ditto ditto at Hastings ... ..	827	12 2		

Under almost every other heading the expenditure for the year appears to have fallen below the budget figures; and except as regards the interest and sinking fund payments, to which we have called attention in the last paragraph, the short payments seem to represent *bonâ fide* savings.

#### LIGHTING RATE ACCOUNT.

30. We observe that advances were made from this account in the course of the year 1877 for the purchase of ornamental lamps for the *maidan*, a balance of Rs. 142-8-0 remaining unadjusted out of these advances at the close of the year. The cost of lighting the *maidan* being borne by the Government, it is not clear why advances in connection with it should be made from the funds of the Corporation; for although one of the repayments in part of the original advance was made by the Secretary to the Corporation, it is explained that he acted in this matter on behalf of the Commissioner of Police, for whom he keeps a separate account of the Maidan Lighting Fund, and it further appears that the transactions of this fund are not entered at all in the account of the Police Office. Meanwhile, it is understood that the lighting of the *maidan* is supervised by an employé of the Corporation, the Inspector of Lighting, who receives an extra allowance for the duty from the Maidan Lighting Fund, and that the surplus of this fund, being the amount paid by the Executive Engineer to the Commissioner of Police in excess of the actual expenditure, has been applied in past years, under the orders of the Chairman as Commissioner of Police, towards the support of selected local institutions. We consider it our duty to call special attention to these facts, as they show that the accounts of the Police Office do not include all the cash transactions which take place during a year.

#### MARKET BLOCK ACCOUNT.

31. A payment of Rs. 500 was made to the General Fund in the course of the year, from the balance of the Market Loan Account, on account of the value of a tower clock transferred to the new market building from the Kotrung manufactory, where it used to be held as a part of the manufactory plant. We have asked for a certificate of the clock having been put up and duly incorporated in the block of the new market but have not been furnished with the certificate.

#### DRAINAGE LOAN ACCOUNT.

32. The expenditure incurred during 1877 in the extension of the drainage will be found detailed in this account, sewer by sewer, and there have been added for the first time this year in a separate column the amounts of the sanctioned estimates in corresponding detail. It will be seen that, whereas the estimated drainage expenditure of the year as approved by the Commissioners was Rs. 4,64,562, only Rs. 2,17,648-14-10 were actually expended, and that of this latter sum Rs. 1,47,473-3-8 represented the cost of work with establishment and other charges as sanctioned by the Commissioners, while for the difference, Rs. 70,175-11-2, estimates had been approved by the Chairman, but not by the Commissioners. Some of the payments, moreover, which are included in the above sum of Rs. 1,47,473-3-8, relate to estimates sanctioned prior to 1877, and which do not appear in the statement of the season's operations for 1877 as approved in the Commissioner's proceedings of the 7th April and 26th November 1877.

#### BALANCE SHEET.

33. We have examined and certified the balance sheets which are attached to the printed accounts of the several rate funds and of the loan accounts. With the exceptions noted below, the balances have been analyzed and checked in detail, and their corrections independently verified. The exceptions are—

	Rs.	A.	P.
Bills in the hand of the Engineer ... ..	412	0 6	
Deposits for appeals against assessments ... ..	2,097	1 6	

of which neither details, nor the needful verifying certificates have been produced.

34. The same remark applies to the amounts which appear in the balance sheets as held by the Collectors and the arrear department in outstanding rate bills. The amounts are—

	Rs.	A.	P.
Collector, 1st Division, house rate ...	12,613	14	9
Ditto, 2nd ditto, ditto ...	10,001	3	6
Ditto, 1st ditto, night-soil bills ...	15,858	9	9
Ditto, 2nd ditto, ditto ...	21,721	11	0
Superintendent, Arrear Collection Department, house rate ...	16,984	5	5
Ditto, ditto ditto, night-soil bills ...	3,967	2	6
<b>Water-rate—</b>			
Collector, 1st Division ...	11,894	12	0
Ditto 2nd ditto ...	12,404	3	3
Superintendent, Arrear Collection Department ...	13,377	12	0
<b>Police-rate—</b>

Ditto, 2nd ditto ...	5,265	14	6
Superintendent, Arrear Collection Department ...	10,303	2	3
<b>Lighting-rate—</b>			
Collector, 1st Division ...	5,133	10	6
Ditto, 2nd ditto ...	5,265	0	0
Superintendent, Arrear Collection Department ...	8,437	3	3

and the officers concerned admit, in a general way, that the amounts stated represent correctly the outstanding demand of each rate for which they are severally responsible. But stock was not taken of these outstanding bills on the 31st December or any later date, nor have lists detailing the balances been produced to us; so that we have no assurance that bills to the amounts stated were really outstanding on the 31st December.

35. The balances of the store and material accounts are supported by the usual stock lists, which bear out the correctness of the figures in the books; but, as we have pointed out in successive reports, these stock lists are signed, and stock appears to have been taken only by the store-keeper in charge of each store or material depôt. We repeat our annual remark that it is desirable, in our opinion, that there should be some independent check on the accuracy of the stock lists.

36. We would call your attention, in conclusion, to the balances which appear in the balance sheet against the headings "Debenture Loan Sinking Fund" and "Interest payable on Debenture Loans." The first of the headings has been opened in accordance with the suggestion contained in paragraph 33 of our last report, and has been credited with the contribution set aside during the year towards the repayment of the debenture loan. It was not found possible, however, before the books were closed to transfer to this heading, the proportion belonging to it of the balance of the General Sinking Fund as hitherto maintained. The balances under the two Sinking Fund Accounts, therefore, are subject to re-adjustment in the course of the year 1878. The same remark applies to the balance at credit of the account "Interest payable on Debenture Loans." It has been ascertained, as explained at paragraph 25 of this report, that the amount remaining at credit of this account as a whole exceeds the correct balance by Rs. 889, and this sum is held in a suspense heading on the interest ledger, subject to refund during 1878 to credit of the General Fund Account.

We have the honor to be,

GENTLEMEN,

Your most obedient servant,

JAMES TAYLOR, *Asst. Comptroller-General.*
